A Plastic Ocean

Film Screening | Fri 28 Apr

We are excited to invite you to our special screening of A PLASTIC OCEAN, an award winning documentary film which brings to light the consequences of our global disposable lifestyle. We thought we could use plastic once and throw it away with negligible impact to humans and animals. That turns out to be untrue.

Each year 8 million tons of plastic go into our oceans and the film shows the shocking truth about what is truly lurking beneath the water's surface. The result will astound you - just as it did our adventurers - who captured never-before-seen images of marine life, plastic pollution, the devastating effects on our marine life, and its ultimate consequences for human health.

Please join us for this special evening to meet Craig Leeson, Director of A PLASTIC OCEAN, followed by the complimentary film screening.

A big thank you to our Series Sponsor:
