# Crowdfunding in the Era of Blockchain: Initial Coin Offerings

**InterCham Lunch Seminar | Tue 6 Mar 2018**

Is it any wonder that backers and creators alike are dubbing blockchain crowdfunding the future of investing? Crowdfunding is a method for small companies to finance the establishment and development of their business—an unorthodox method, compared to the traditional stock exchange IPO. This approach helps many projects get more, faster, and lower-cost funding than they can achieve otherwise.

Join our friends at Italian Chamber in this inspirational seminar to know more about how Initial Coin Offerings have brought a solution to all the traditional issues related to financing for new businesses.

About the Speaker:

**Filippo Buzzi, Head of Italian Desk at Fidinam (Hong Kong) Limited**

During his career, Filippo has worked in Switzerland, United Kingdom, Mainland China and finally Hong Kong. After graduating at University of Trieste in Italy, he studied in both London (University of London) and Amsterdam (IBFD) where he has built his competence in international taxation. Filippo is bilingual in Italian and English.
